

# SLINGER

Hydrovac & Industrial Turbo Nozzle

## FEATURES:

- Better Durability & Longer Lasting
- Advanced Filter Coin System
- 205f / 96c Heat Rating
- 4200 psi Rating
- 10-Degree Spray Radius
- Safety Yellow
- Stainless steel Inlet and Body
- 80% Stronger Carbides
- Less vibration
- Less Noise
- Strongest Cover on the Market

## NEW FEATURES:

- Changeable GPM with purchased kits
- Trackable serial numbers

*Patent Pending*

## Hydrovac & Industrial Turbo Nozzle

As owners, operators, and builders of Hydrovacs for over 25 years we know and understand there is a need for better, sustainable, long lasting products such as nozzles.

### **DIG PIGS IS NOW KNOWN AS THE WORLDS GREATEST HYDROVAC NOZZLE.**

After 7 years of engineering and testing, Dig Pig didn't have just one goal in mind, we had many. We targeted major goals like...

- longevity & Durability
- Performance
- Safety
- lower Noise levels
- lower vibration
- Efficiency
- Better filtration
- Higher pressure ratings
- Higher heat ratings
- landfill impacts
- Consumer savings

**SO, GUESS WHAT? ..... YUP, WE DID IT!**  
**INTRODUCING THE SILENCER HYDROVAC NOZZLE!**

### **NOZZLE SPECIFICATIONS**

- Minimum Inlet Pressure - 1,000 psi
- Maximum Inlet Pressure - 4,200 psi (2500 psi recommended)
- Housing Material - Stainless Steel
- Maximum Water Temperature - 205 Degrees Fahrenheit (96 Degrees Celcius)
- Nozzle Tip and Seat Material - Tungsten Carbide
- Protective Cover - Advanced low wear nylon machined cover
- Inlet Connection Thread - 1/2" FNPT ORB
- Filter Coin - Advanced Filtration (stainless steel screen and ORB #12 fitting 1/2" FNPT)
- Weight - 1.6 lbs / 0.726 kgs
- Color: - HiVis Safety Yellow/Green
