EQUIPMENT COMPANY

PARTS & TOOLS CATALOG

"Nobody Works Harder For You Than Haaker"

Victor Valley, California | Vector 2100i

FAMILY OWNED
& OPERATED

OVER
50
YEARS

COMMITTED

TO OUR
CUSTOMERS

We are committed to delivering the highest quality products and services through a team empowered to meet and exceed customer expectations.

ABOUT US

For over 50 years, Haaker Equipment Company has been at the forefront of industrial cleaning equipment and service. As a top-ranking producer, our objective is to provide our customers with quality products and complete support services for their many needs. We proudly provide municipal and industrial cleaning equipment from street sweepers, sewer cleaners, industrial floor scrubbers, pressure washers, and industrial vacuums. We support California, Nevada, and Arizona with parts, rentals, service, and sales through trusted brands such as Elgin, Vactor, TruVac, KEG, Sonetics, Envirosight, PowerBoss, Columbia, HydroTek, Stetco, Harben, and Cimline.

Puma Grabber With 8" Jaws

Part Numbers:

PMA-6S	6"
PMA-8S	8"
PMA-10S	10"
PMA-12S	12"
PMA-15S	15"
PMA-18S	18"

Handy Clam With Small 12" Bucket

Part Numbers:

SHC-6	6'	SHC-16	16'
SHC-8	8'	SHC-18	18'
SHC-10	10'	SHC-20	20'
SHC-12	12'	SHC-25	25'

Vacuum Traps - Available With Grit Covers

Aquatech Type Female End Vac-Trap

Part Numbers:

AT-6	6"
AT-8	8"
AT-10	10"
AT-12	12"
AT-15	15"
AT-18	18"
AT-24	24"

Vector Suction Tube Flat Flange Vac-Trap

Part Numbers:

BT-6	6"
BT-8	8"
BT-10	10"
BT-12	12"
BT-15	15"
BT-18	18"
BT-24	24"

Vector Camel Type Female End Vac-Trap

Part Numbers:

CT-6	6"
CT-8	8"
CT-10	10"
CT-12	12"
CT-15	15"
CT-16	18"
CT-17	24"

Vac-Traps allow water to stay in the sewer line while removing debris. This carefully designed tool will save you time and energy with an installation that is fast and easy.

Valves, Swivels, Stake Roller & Plumbers Rod

2-Way Ball Valve - 5000 PSI

Part Numbers:

BHK-3/4- 2-S-234
BHK-1-3 - S-31
BHK-3-3/4- S-334

90° Swivel

Part Numbers:

SS-34E
SS-1E
SS-12E

Stake Roller for Hose

Part Numbers:

SSR-5

Plumbers Rod

Adapter Rods

Part Numbers:

AR-1-SS	5/16"	Super Short
AR-1-2SS	3/8"	Super Short

Part Numbers:

AR-1-1	5/16"	Adapter Rod
AR-1-2	3/8"	Adapter Rod

Blue Premium Rods

Part Numbers:

STR-1-1	5/16" X 36"
STR-1-2	5/16" X 39"
STR-1-3	5/16" X 48"
STR-1-4	5/16" X 60"
STR-1-5	5/16" X 72"

Part Numbers:

STR-1-6	3/8" X 36"
STR-1-7	3/8" X 39"
STR-1-8	3/8" X 48"
STR-1-9	3/8" X 60"
STR-1-10	3/8" X 72"

Flexichrome Silver Rods

Part Numbers:

STR-1-1	5/16" X 36"	STR-1-6	3/8" X 36"
STR-1-2	5/16" X 39"	STR-1-7	3/8" X 39"
STR-1-3	5/16" X 48"	STR-1-8	3/8" X 48"
STR-1-4	5/16" X 60"	STR-1-9	3/8" X 60"
STR-1-5	5/16" X 72"	STR-1-10	3/8" X 72"

Quick Couple Rods

All 5/16" rods are available with quick connect and disconnect spring-loaded pin couplings

Accessory Tools

Pick Up Tools

Part Numbers:

P1-1	5/16"
P1-3	3/8"
P1-3	3/8"
P1-4	3/8"

Spear Head

SEWER NOZZLES

SEWER NOZZLES

Here at Haaker, we take pride in offering the highest quality equipment to support industrial pipe and storm cleaning. For these professionals, few tools are as important as sewer nozzles. These nozzles come in a variety of types designed to tackle your toughest projects with powerful precision. Like Haaker, KEG is committed to providing quality products to customers and supporting technology improvements through continuous education. Every product is backed by KEG's quality promise, offering a wide range of sewer nozzles to perform in even the most difficult of cleaning conditions.

Chain Cutter Family

Stabilized by stainless steel guide carriage skids, the cutters feature a unique spinner nozzle design that rotates the main shaft, spinning the attached chains at 2,500 RPM. Chains can be configured for grease or scale removal and root removal.

Micro Cutter
(2" - 6")

Mini Cutter
(4" - 10")

SP 150 Cutter
(6" - 24")

SCP 200 Cutter
(8" - 48")

SN 4000 Cutter
(6" - 48")

Call us today or visit us online for more information on our nozzles.

Micro Chain Cutter

Features:

- Easily configured
- Use in sweeping 90 degree or 45 degree elbows
- Pipe range: 2", 3", 4", 6"
- No skid required for 2" and 3" applications

Mini Chain Cutter

Features:

- Easily configured
- Use with 1/2", 3/4" and 1" hose applications
- 4", 6", 8", and 10" (optional) pipes available
- Pump minimum of 18 GPM and 1700 PSI required

Super Cutter Plus 150

Features:

- Stainless steel construction
- Water-driven design
- Roller chain is forgiving on pipe walls
- Skids and distance plates included for pipes 6-16"

Super Cutter Plus 200

Features:

- Stainless steel construction
- Water-driven design
- Skids and distance plates included for pipes 8-20"
- Pump flow of minimum of 50 GPM and 1200 PSI

Supernova 4000

Features:

- Easily configured for multiple jobs
- High speed, high torque water-driven design
- Skids and distance plates included for pipes 6-16"
- Roller chain is forgiving on pipe walls
- Operates in egg-shape pipes
- Pump flow of minimum of 50 GPM and 1700 PSI

Specialty Nozzle Family

We offer the perfect solution for all your pipe cleaning application needs! These nozzles are built to last and are designed to tackle a variety of materials.

Aqua Power 700 Nozzle

Features:

- Multiple applications with one nozzle
- Individual jets
- Rear jets can be plugged for manhole cleaning
- Bolt-on skids included

R2D2-1 Nozzle

Features:

- Controlled-speed directional cleaning utilizing centrifugal clutches
- Replaceable threaded titanium ceramic inserts

Equalizer Nozzle

Features:

- Replaceable titanium ceramic inserts
- Bolt-on skids (included increase nozzle body diameter to 8"

DUCE Nozzle

Features:

- No maintenance or lubrication required
- Pressure range: 1300 PSI to 2000 PSI
- Hose sizes: 0.375" - 1.25"
- Flow range: 5 GPM - 125 GPM

Revolution by Reaper Rotating Sewer Nozzle

Features:

- All-In-One ability
- Removes 25% more debris than competition
- High climb ability
- Magnetic clutch for low maintenance
- Flow range 40-80 GPM

Commander Rotator Nozzle

Features:

- Jets with the flow from uphill downward
- 4 rotating jets, 4 forward facing, & 4 propulsion jets
- Pressure range: 1500-3000 PSI
- Flow range 50-120 GPM

Floor Cleaner Family

Features:

- 14 Jet, 12 Jet, 10 Jet, 8 Jet, and 6 Jet models available
- Fillable weight port
- High efficiency cleaning and reduced operating costs
- Superior water pattern design
- Heavy or compacted solids

"The Twins" Family

Features:

- Complete package including fittings
- Large diameter lines
- Can utilize any KEG floor cleaner
- Parallel in a large diameter pipe

Aluminum Nozzles

KEG's Aluminum Nozzles are lighter to handle and have the same great advantages and applications as the nozzles made of stainless steel. The aluminum nozzles are available in Traction, Cleaning, Torpedo, and Royal models only.

Traction
Nozzle

Cleaning
Nozzle

Torpedo
Nozzle

Royal
Nozzle

KEG sewer nozzles provide outstanding efficiency for larger storm and sanitary lines. These heavy-duty cleaning nozzles are engineered for quality cleaning every time.

Cleaning Nozzle Family

Our Cleaning Nozzle Family includes a variety of products that are designed to aid you in routine pipe cleaning and maintenance applications.

Tier One: Lower Efficiency, Shorter Life Span

Standard Nozzle

Features:

- Factory-drilled orifices
- Optional forward jet
- Water resistant
- Cost competitive

Ball Nozzle

Features:

- Optional forward jet
- Water resistant
- Cost competitive tier one nozzle
- Rounded edges

Forward Jet Nozzle

Features:

- Moves debris away from area
- Cost effective
- No back-flow into house or structure
- Wear resistant

Tier Two: Better Efficiency, Longer Life Span

Standard Egg Nozzle

Features:

- Tier Two nozzle
- Replaceable inserts prolong nozzle life
- Made of 300 series hardened stainless steel

Egg Devastator Nozzle

Features:

- Cost competitive Tier Two nozzle
- 30-degree jet angles available
- With replaceable inserts to prolong nozzle life

Sewer Flush Nozzle

Features:

- Nozzle designed for dragging
- Cost competitive Tier Two nozzle
- High wall force for better cleaning

Tier Three: Most Efficient and Most Powerful Fluid Mechanics, Longest Life Span

Traction Nozzle

Features:

- With replaceable inserts to prolong nozzle life
- Penetrator and cleaning nozzle
- Optional forward penetrating style

Royal Nozzle

Features:

- One of the nozzles in the Cleaning Family
- High wall force
- Save time, money, and energy

Torpedo Nozzle

Features:

- Suitable for 6" to 16" pipes
- With replaceable inserts to prolong nozzle life
- Save energy

Sewer Nozzle

Features:

- Heavy dragging nozzle
- High wall force cleaning
- Replaceable threaded inserts
- General sewer cleaning
- Tier Three nozzle, 80% efficiency

Cleaning Nozzle

Features:

- Durable nozzle for everyday general cleaning
- Available in 1/2" size cleaning nozzle
- High wall force cleaning
- Wide angles reduce air draw
- Tier Three nozzle, 80% efficiency

Penetrating Nozzle Family

We understand the need for efficiency when it comes to tough clogs and obstructions in a sewer line. We offer high performance penetrating nozzles for any task at hand.

Tier One and Tier Two Efficiency:

Triple Edge Quattro Nozzle

Drill Point Quattro Nozzle

Rambo Nozzle

Tier Three Efficiency:

Stallion Nozzle

O.M.G. Nozzle

Triple Edge Quattro Nozzle

Features:

- Forward jets
- Available with steel or titanium ceramic inserts
- Forward jets
- Sharp edges
- Good thrust

Drill Point Quattro Nozzle

Features:

- Excellent traction
- Affordable
- Designed for grease piercing
- Drill point
- Better thrust

Rambo Nozzle

Features:

- Engineered to function as three nozzles in one
- Forward jets
- Drill points
- Total blockages
- Excellent thrust

Stallion Nozzle

Features:

- High thrust with 12" jets
- Long design spans holes
- Minimal force on the pipe wall
- Replaceable inserts
- Heavy debris removal
- Gentle on pipe walls

O.M.G. Nozzle

Features:

- Tier 3 efficiency
- Clears path for other nozzles
- Gentle on pipe walls
- Heavy debris removal
- Replaceable inserts

Finishing Nozzle Family

KEG's Finishing Nozzles are designed with a free-spinning rotor to remove those grease deposits along with tender roots and other vegetation to ensure perfectly cleaned pipes and a finished job.

Features:

- Designed with 360-degree maintenance tool to provide the finishing touch
- High rotational speed
- Reversible rotating barrel

1" Rotor Nozzle

1/2" Rotor Nozzle

1/4" Rotor Nozzle

Marksman™ Long Distance Cleaning Nozzle

The Marksman is designed to provide precision in distance and industrial cleaning performance. It is engineered for any hard to reach cleaning applications while keeping the operator safe.

Features:

- Long distance cleaning nozzle
- Engineered for hard to reach cleaning areas
- Accuracy and precision
- Superior design
- Operator safety
- Reduced water consumption

Ejector Nozzle Family

Ejector nozzles are suitable for cleaning water-bearing pipes only. The special arrangement of the nozzle inserts results in the "soft" cleaning effect; making these nozzles for cleaning older sewer networks and culvert cleaning.

Ejector Nozzle (Small / Large)

Features:

- For sewer pipes from 10" to 16"
- HP connection 1" inner thread
- Six nozzle inserts
- Small: weight of 22.2 lbs.
- Large: weight of 46.25 lbs.

Deep Sucker Ejector

Features:

- Connection with high-pressure jetters
- For sludge suction and discharge
- More than 26' to aid the vacuum pump
- HP connection with 1" union nut
- High-pressure pump

Nozzle Kits, Packages, & Parts

KEG offers many kit combinations and arrangements and is intended to give our customers the best solutions for specific job requirements. From swivels to inserts, we stand ready to provide you with the parts and tools you need.

1" & 3/4" Kits

Features:

- Combinations from starter kits, basic kits, sanitary kits, complete kits, and storm kits
- Includes a variety of nozzles
- Designed to be compact, mobile, and durable

1/2" & 3/4" Kits

Features:

- Includes a variety of nozzles
- Designed to be compact and mobile
- Combinations from starter kits, basic kits, sanitary kits, complete kits, and storm kits

High Pressure Swivels

Features:

- Engineered to endure
- Available in a variety of sizes
- Contact us today for our full list of sizes

Replaceable Inserts

Available:

- M8 inserts
- M14 inserts
- M6 inserts

Hydro Excavation Nozzle Family

Hydro Excavation is often a more precise and safer way of digging than with traditional mechanical means. Our collection of hydro Excavation nozzles are all suited for 1/2" hose connections, with the New Style Twister Nozzle offering multiple connection sites.

Hydro Excavation Nozzle

Features:

- Flow ranges from 4 GPM - 25 GPM
- Excellent for hydro excavating
- Designed for digging
- Stainless steel body
- Zero rear jets and four replaceable front jets
- Strictly for hydro excavating

Hand Injector Nozzle

Features:

- Excellent for hydro excavating
- Manual cleaning
- Lightweight and built to last
- Flow ranges from 4 GPM - 25 GPM
- Stainless steel body
- Zero rear jets and four replaceable front jets
- Not used for cleaning lines

Twister Nozzle - Old Style

Features:

- Oscillating forward jets
- Designed for digging and cleaning lines
- Excellent for hydro excavating
- Four rear jets can be plugged or opened
- Stainless steel body
- Available in 1/2" size

Twister Nozzle - New Style

Features:

- Oscillating forward jets
- Excellent for hydro excavating
- Designed for digging and cleaning lines
- Four rear jets can be plugged or opened
- Stainless steel body
- Available in multiple sizes

When your business begins building a repertoire of sewer cleaning tools, one of the things you can't do without are sewer nozzles. Every cleaning situation will require a different set of tools, so if you plan to offer the best service to your customers you'll need a variety of equipment to do so.

TRUVAC Hydro Excavators

Our hydro excavation trucks come equipped with water heaters and produce high-pressure low volume streams to quickly and safely dig. Hydro Excavation equipment is safe for operators and friendly for the environment. Unlike traditional excavation tools that have been used in the past, hydro excavators are great for removing dirt and debris without causing excessive damage to the surroundings. Check out the fleet of TRUVAC trucks below to learn more.

TRUVAC HXX

The TRUVAC HXX Hydro Excavator is a powerful machine that tackles major excavations while still providing safe, non-destruction digging. For over 50 years Vactor has been supplying contractors and municipalities with products with air conveyance and high-pressure water vacuum technology that is built to last.

TRUVAC Paradigm

The most innovative and versatile sub-compact vacuum excavator on the market, the Paradigm lets you excavate around utilities with the utmost safety and efficiency. Paradigm is customer inspired and built to satisfy the most stringent safe digging requirements.

TRUVAC Prodigy

The perfect safe-digging machine for a wide range of demanding applications, our TRUVAC hydro excavators deliver prime results every time. The Prodigy delivers incredible versatility and power. Lower your operating cost while increasing your efficiency.

Hydro Excavation Nozzle Family

Hydro Excavation Nozzle

Features:

- Flow ranges from 4 GPM - 25 GPM
- Excellent for hydro excavating
- Designed for digging
- Stainless steel body
- Zero rear jets and four replaceable front jets
- Strictly for hydro excavating

Twister Nozzle - Old Style

Features:

- Oscillating forward jets
- Designed for digging and cleaning lines
- Excellent for hydro excavating
- Four rear jets can be plugged or opened
- Stainless steel body
- Available in 1/2" size

Hand Injector Nozzle

Features:

- Excellent for hydro excavating
- Manual cleaning
- Lightweight and built to last
- Flow ranges from 4 GPM - 25 GPM
- Stainless steel body
- Zero rear jets and four replaceable front jets
- Not used for cleaning lines

Twister Nozzle - New Style

Features:

- Oscillating forward jets
- Excellent for hydro excavating
- Designed for digging and cleaning lines
- Four rear jets can be plugged or opened
- Stainless steel body
- Available in multiple sizes

DigPig Hydro Excavation Nozzles

Silencer Nozzle

Features:

- 4200 PSI
- 10° spray radius
- 80% stronger carbides
- Stainless steel inlet and body
- 205° F/96° C heat rating
- Less vibration and noise

Titan Hydrovac Lance

Features:

- 3 foot to 7 foot lengths
- Made with stainless steel, schedule 80 aluminum, and type 3 anodizing to strengthen alloys
- Corrosion free
- 90% stronger than other lances on the market

Hydra-Flex Nozzle Family

Ripsaw Rotating Turbo Nozzle

Features:

- 3200 PSI
- High-performance rating
- Non-conductive
- Heavy-duty
- High-impact
- 0° straight water stream
- 18° cone coverage

Machete Linear Oscillating Nozzle

Features:

- Rugged design
- Replaceable
- Durable
- Non-conductive
- Heavy-duty
- High-impact
- Color-coded

Hand Injector Nozzle

Features:

- Superior performance
- Allows you to cut deeper
- Prepared to tackle your toughest jobs
- Reduces undermining for safer operating use
- Withstands harsh environments
- 15° wedge of powerful flow
- Faster digging ability

Hydro Excavating Tools & Accessories

Having the right hydro Excavation equipment is crucial to reaching delicate and fragile under-ground structures. Our hydro Excavation trucks come equipped with water heaters and produce high-pressure low volume streams to quickly and safely dig. When you incorporate high-pressure, low volume streams achieve maximum efficiency by clearing dirt and debris while using the least amount of water. Hydro Excavation equipment is safe for operators and friendly for the environment. We know that tools and accessories are just as important as the trucks we offer. That is why we provide our customers with the best in hydro excavating tools from trusted brands.

Vactor / Van-Con "Dig-It" Tool

Part Numbers:

HY-EX-8V4-3/4	8"	3/4" Hose Size
HY-EX-8V8-3/4	8"	3/4" Hose Size
HY-EX-8V10-3/4	8"	3/4" Hose Size
HY-EX-8V4-1	8"	1" Hose Size
HY-EX-8V8-1	8"	1" Hose Size
HY-EX-8V10-1	8"	1" Hose Size

Camel "Dig-It" Tool

Part Numbers:

HY-EX-8C4-3/4	8"	3/4" Hose Size
HY-EX-8C8-3/4	8"	3/4" Hose Size
HY-EX-8C10-3/4	8"	3/4" Hose Size
HY-EX-8C4-1	8"	1" Hose Size
HY-EX-8C8-1	8"	1" Hose Size
HY-EX-8C10-1	8"	1" Hose Size

Vac-All "Dig-It" Tool

Part Numbers:

HY-EX-8J4-3/4	8"	3/4" Hose Size
HY-EX-8J8-3/4	8"	3/4" Hose Size
HY-EX-8J10-3/4	8"	3/4" Hose Size
HY-EX-8J4-1	8"	1" Hose Size
HY-EX-8J8-1	8"	1" Hose Size
HY-EX-8J10-1	8"	1" Hose Size

The hydro excavator "Dig-It" Tools connect to your suction tube by way of the top flange to fit your style of machine. Models come in 10 jet, 8 jet and 4 jet depending on your needs.

Hydro-Vac Tube Holders & Handles

Two Style Handle

Part Numbers:

HYH-4	4"	Hydro-Vac Tube Holder With 2 Handles For 4" Tube Or Hose
HYH-6	6"	Hydro-Vac Tube Holder With 2 Handles For 6" Tube Or Hose
HYH-8	8"	Hydro-Vac Tube Holder With 2 Handles For 8" Tube Or Hose

Yellow Tube and Adapter

Part Numbers:

1280122A	4" Yellow Hose
1280188C	6" Yellow Hose

Part Numbers:

6FFX6FH	6" Yellow Hose Adapter
8FFX8FH	8" Yellow Hose Adapter

Tube Hose Clamps

Tube Hose Clamps keep your hose steady at every connection. They are a great addition to your tool kit while being affordable and easy to use.*

Part Numbers:

THV-8	Tube Hose Clamp	Vactor / Vac-Con For 8"
THC-8	Tube Hose Clamp	Camel / Vac-All For 8"

Tube clamps provide security to your piping and hoses.

Our Southland Tube clamps feature a variety of important features that make them a vital product to use in your system.

*Image on the left displays the Tube Hose Clamps.

Image on the right shows the Tube Hose Clamps with a Hydro-Vac Tube Holder.

Ring-O-Matic Vacuum Excavators

We are excited to include Ring-O-Matic in the great line of hydro Excavation equipment we offer. These machines utilize the cutting power of high-pressure water and air along with a powerful vacuum for a wide variety of uses. Applications include potholing, sewer jetting, pit cleaning, environmental cleanup, construction site cleanup, and several other uses.

550 Jet Vac

The narrowest machine in its class the 55VX Hydro Vacuum Cleaner is maneuverable while being easy to see around.

Features:

- Available in vacuum trailer, vacuum truck, and skid mount configurations
- Powered by CAT®
- Compact low profile
- Rugged construction
- Unique handle style
- Easy to clean

850VX

The 850VX Hydro Vacuum Cleaner offers standard reverse flow and an obstruction-free vacuum hose for quick and easy cleaning.

Features:

- 800-gallon capacity
- 42 horsepower
- Positive displacement lobe pump
- 4,000 PSI
- Rear curbside water supply reel
- Tandem axle trailer

275VX

A Hydro Vacuum Cleaner that features a compact and low profile. This Vacuum Excavator provides easy visibility for your driver while offering stability in rough locations.

Features:

- Compact low profile
- Rugged construction
- Unique handle style
- Available in vacuum trailer, vacuum truck, and skid mount configurations
- Powered by CAT®
- Easy to clean
- Balanced design with optimum tongue weight
- Unique single-handle door latch design for faster opening and closing
- Patented Cyclo-Jet Potholing Excavator available
- Reverse flow

FT150VX

Combine high productivity with a compact design and you get the FT150VX. The power and efficiency of a 600 CFM blower that fits easily into a standard pickup bed, flatbed, or trailer.

Features:

- 150 gallon spoils tank
- Fixed tank design
- Eliminates hydraulics
- Easy-opening "spider" door lock system
- Operator comfort
- 90-gallon capacity water tank
- Compact design
- Easy to store and transport
- Safe utility locating and/or daylighting
- Ideal for cleaning our storm drains, catch basins, and valve boxes
- Entry-level machine for contractors

Viper

The Viper delivers the cleanest, safest, fastest, easiest one man potholing solution.

Standard

Dielectric

Features:

- Standard and dielectric options available
- Safe exposure
- Operator safety
- Delivers unmatched performance every time
- Increased profitability
- Increases productivity
- Potholes a 4' deep hole in about a minute
- Engineered patented high quality rotating nozzle to shoot 3,500 PSI water into the earth

Here at Haaker, we support safe digging every time!

Contact 811 before you dig!

Dig smart. Dig safe.

Ring-O-Matic products are currently only available in our California and Nevada locations.

Air Spade Tools & Accessories

We are excited to offer Air Spade to our customers. Air excavation has become a preferred method for digging on many jobs ranging from utility work to advanced tree care. Excavating with the AirSpade offers several advantages over conventional tools such as picks, shovels, and backhoes.

AirVac Vacuum Excavator - Utility Kit

AirVac is a mobile alternative to large vacuum trucks. This Vacuum Excavator is the ideal combination to safely uncover buried electric, gas, and water lines.

Features:

- Heavy-duty
- All aluminum construction
- 82 gallon tank
- Removable vacuum
- 24" x 16" dump door
- 15" diameter pneumatic tires
- Retractable stabilizer bar
- Integral air-pressure gauge

Lightweight Air Hose

Designed with flexibility and performance in mind, this air hose reduces worker fatigue while increasing overall hose mobility. Available in 10' and 25'.

Features:

- Oil-resistant
- Double jacket design for maximum durability
- Reinforces with high-strength textile yarn
- Chicago-style couplers
- Visibility-safe yellow

AirSpade 2000

Features:

- Available in 25 cfm, 60 cfm, 105 cfm, 150 cfm, 225 cfm; all with 4' barrel lengths
- Uncover underground objects without harm using compressed air

AirSpade 2000 - Short Barrel

Features:

- 60 cfm nozzle, 2' barrel
- Highly focused soil excavation
- Short barrel simplifies close-in work
- Dead-man trigger for safety

AirSpade 2000 Extensions

Features:

- Coupler included
- Available in 2', 3', 4', and 5'
- Lightweight design
- Electrical protection
- Dual female threaded coupler

AirSpade 3000

Features:

- 330 cfm; 5' barrel
- Move maximum dirt in minimum time
- In-line style handle with soft rubber grip
- Adjustable dirt shield

Utility AirSpade 4000

Features:

- Available in 105 cfm, 150 cfm, and 225 cfm; all with 4' barrel design
- Non-sparking brass barrel
- Adjustable rubber spray shield

Utility AirSpade 4000 Extension

Features:

- Coupler included
- Available in 2', 3', 4', and 5'
- Heavy-duty
- Provide extended reach
- Non-conductive

Utility AirSpade 4000 Kit

This case includes AirSpade's most popular components and accessories

Includes:

- Utility AirSpade 4000 handle
- 4' insulated, fiberglass barrel with dirt shield
- 3' insulated extension
- 105 cfm non-sparking bronze supersonic nozzle
- Plastic locking storage case
- 45 degree non-sparking brass angled adapter
- 1" ID x 10' lightweight air hose with Chicago-style connectors

Harben Trailer Jetters

We are excited to offer Harben jettors to our customers. Hydro jet drain cleaning, also called high pressure drain jetting is the process of using a high pressure water jet nozzle on the end of a long hose, to blast clean sewer pipes.

E180 DTK 375 Trailer Jetter

The Harben E180 is suitable for cleaning drains and sewers from 1" to 18" in diameter. The E180 has the patented Harben 'P' type high pressure diaphragm pump.

Features:

- 4000 psi / 18 gpm
- 375 gallon capacity
- 180 degree hydraulic & pivoting hose reel
- 7 channel wireless remote control (optional)
- Emission compliant diesel engine
- Single axle trailer

ET180 DTK 750 Trailer Jetter

To maximize your working time, the Harben ET180 trailer jetter is the model for you. It shares all the great features of the E180 with a 750 gallon water capacity.

Features:

- 4000 psi / 18 gpm
- Harben "run dry" high pressure diaphragm pump
- 750 gallon capacity
- 180 degree hydraulic & pivoting hose reel
- Double axle trailer

Harben Enclosed Jettors

4018 DSK Enclosed Jetter

Features:

- 4000 PSI/18 GPM
- Pullout pivoting hose reel carries up to 500' of jetting hose
- 375 gallon water capacity
- UV protected polyethylene tanks
- Lowest operation and maintenance costs in the industry

4018 VPK Van Pack Jetter

Features:

- 4000 psi /18 gpm
- Easy installation
- Kubota low emission diesel engine
- Hydraulic hose reel with feed guide
- Cleans drains up to 18" diameter
- Anti-freeze recirculation system

Harben Truck Mounted Jettors

4025 "Hi-O" Truck Mounted Jetter

Features:

- Up to 4,000 psi and 25 gpm
- Powerful Stage 5 low emission diesel engine
- Hydraulic hose reel and guide
- Heavy duty steel frame
- Cleans and descales drains up to 24" diameter
- Anti-freeze recirculation system

1018 "Century" Truck Mounted Jetter

Features:

- Up to 10,000 psi and 40 gpm
- Powerful Stage 5 low emission diesel engine
- Heavy duty steel frame
- Cleans and descales drains up to 36" diameter
- Anti-freeze recirculation system

4018 "P Type" Truck Mounted Jetter

Features:

- 4000 psi / 18 gpm
- Harben "run dry" high pressure diaphragm pump
- 750 gallon capacity
- 180° hydraulic & pivoting hose reel
- Jump jet (optional)
- 7 channel wireless remote control (optional)
- Kubota or Hatz emission compliant diesel engine
- Single axle trailer

P Type (High Pressure Diaphragm Pump)

Features:

- Variable pressure and flow options up to 6000 PSI & 18 GPM
- Run dry without damage
- Filtration to 150 microns
- Pump sea water without modification
- Use with hot water up to 140°
- Multi-cylinders therefore no pulsation
- Compact and lightweight

The Harben pump offers flexibility for sewers ranging from 2"-18" diameter.

Cimline Asphalt Repair

Cimline's asphalt repair equipment offers unmatched ergonomic features, intuitive controls, and innovative solutions that ensure the quietest, safest, and most cost-effective operation on the market. Celebrated for pioneering tools that have revolutionized pavement preservation, Cimline boasts numerous industry firsts, such as the oil jacketed kettle, vertical material agitator, dual temperature control, electronic burner ignition and rubber torsion axles.

MA4 Longitudinal Joint Sealer

No CDL is required. The MA4 can be towed by a 1-ton work truck giving your company the ability to perform the job on your own schedule

Features:

- Works well with bulk material and material in solid block form
- Automated controls
- Set width and material application rate in seconds
- Indicator lights report speed is within range

M-Series Crack Sealer Machines

Contractors rave about the operator ease of use in the Cimline M-Series crack sealers, which range from 150 to 410-gallons capacities.

Features:

- Lowest load height in the industry
- optimizes operator safety
- Up to 40% lower noise
- Automatic controls
- Superior ergonomics with the M-Series Lightweight wand or Dripless wand

P5 One-Person Patcher

Features:

- Intuitive joystick controls
- Unique, 3-section boom and nozzle
- Pressurized 300-gallon emulsion tank
- Electric blanket heating
- Large safety lights
- Heated emulsion tank holds 10 tons of patch material

P2 Two-Person Patcher

Features:

- Lower maintenance costs
- Onboard heat allows patching in cold weather
- 18-foot working radius boom
- Limits public disruption
- Vent-Flo™ nozzle that thoroughly coats the aggregate with emulsion
- Delivers aggregate up to 2.5" in diameter

K-Series Emulsion Applicator

Features:

- 7-gauge steel tank & torsion axles
- Easier access with large maintenance hatch
- 250 and 500 gallon capacity
- Adjustable application with a folding spray bar and nozzle adjustment valves

R3 Asphalt Crack Router

Features:

- Quick Stop II anti-kickback system stops all backward travel if handles are released
- Dust suppression tank
- Cut-control option for consistent cut depth
- Large tilt-up shroud allows for bit access

ME-Series Mastic Melter Machine

Features:

- Best-in-class mixing agitator for complete mixing and suspension of materials
- Quick heat-up time
- Propane heated rear chute
- 6" Guillotine valve for controlled flow
- Digital temperature control monitors oil and material

P3 Truck-Mounted Patcher

Features:

- Universal design mounts
- Tight-turn radii and low clearance residential streets
- Onboard heat allows patching in cold weather
- 18-foot working radius boom
- Vent-Flo™ nozzle thoroughly coats the aggregate
- Delivers aggregate up to 2.5" in diameter

P4 Roll-Off Patcher

Features:

- Heated emulsion tank provides enough product to apply over 10 tons of patch material
- Onboard heat allows you to create a permanent patch in any weather
- Ergonomic, no-stress boom easily covers an 18-foot working radius
- Specially designed Vent-Flo™ nozzle that thoroughly coats the aggregate with emulsion, ensuring a permanent patch
- DuraPatcher venturi system delivers aggregate up to 2.5" in diameter

Stetco Clamshell Bucket Trucks

At Haaker Equipment Company, we're proud to offer Stetco's groundbreaking, environmentally-friendly solutions for managing municipal drainage operations, fully compliant with EPA stormwater requirements. Stetco's clamshell bucket trucks are innovatively designed to extract water while removing hefty debris to drastically cut down on unproductive dump trips. The adaptability of Stetco equipment enable digging in dry conditions, removing the necessity to produce slurry.

The Stetco Difference

Stetco Catch Basin Cleaners clean large volumes of heavy, abrasive and cumbersome debris from stormwater structures and other collection points – with zero liquid discharge. Stetco machines provide a complementary alternative to vac-trucks, at substantially lower cost of ownership.

Features:

- Load solids, not slurry
- Buckets squeeze out liquids and load only solid debris
- No need to carry and discharge water

Orange Peel

Rectangular Clamshell

Round Clamshell

950 Combination Unit

Features:

- Radial piston diaphragm pump jets laterals up to 18" with 1/2" hose
- Up to 4000 PSI at 12 GPM
- 300 gallon water tank
- 300 feet of jetting hose reel
- Equipped with high-pressure, low-volume water jetting system
- Depths down to 50 feet below grade

950T/15

Features:

- 15' hydraulic boom outreach
- Depths down to 100 feet below grade
- Stainless steel, watertight debris body 5-8 yd³ capacity
- Stabilizers for largest Stetco buckets
- Tested on over 140,000 fully loaded cleaning cycles

920 SP14

Features:

- 14' hydraulic boom outreach
- Depths down to 35 feet below grade
- Non-CDL 2-3 yd³ debris body
- Mounted on a Ford F-550 chassis for tight municipal confines
- Handles most bucket sizes

950T/13

Features:

- 13' hydraulic boom outreach
- Depths down to 100 feet below grade
- Stainless steel, watertight debris body 5-8 yd³ capacity
- Stabilizers for largest Stetco buckets
- Tested on over 140,000 fully loaded cleaning cycles

Stetco Clamshell Buckets

Orange Peel

Features:

- Sizes available: 13" and 15"
- Max blade opening up to 36"
- Volume capacity up to 1.3 ft³

Orange Peel - Long Blade

Features:

- Sizes available: 15", 18", & 24"
- Max blade opening up to 48"
- Volume capacity up to 3 ft³

Rectangular Clamshell

Features:

- Sizes available: 12" and 20"
- Max blade opening up to 35"
- Volume capacity up to 4 ft³

Rounded Clamshell

Features:

- Sizes available: 10" and 12"
- Max blade opening up to 34"
- Volume capacity up to 1 ft³

Switch-N-Go Multi-Use Work Trucks

For over two decades, Switch-N-Go® has been providing solutions to businesses that want a work truck that can do more. With nearly 30 different work truck bodies and ground level loading/unloading, Switch-N-Go® offers endless opportunities to maximize investment and optimize the work day. Match your fleet to your business with interchangeable truck bodies to service almost every industry with solutions in stainless steel, specialized equipment upfits, and more.

Multipurpose Made Easy

Switch-N-Go's customizable truck build is the ultimate multi-use truck. It's interchangeable designs enable peak productivity with only one piece of equipment. Switch your truck body easily to another layout and move materials, equipment, and waste with ease.

Features:

- Versatile, efficient, and adaptable
- Builds available in carbon steel, stainless steel, and aluminum
- Ground level loading and unloading
- 50° dump angle

Over 25 Interchangeable Work Truck Bodies

Drop Box & Dumpster Bodies

Dump Bodies

Arbor Bodies

Platform & Equipment Bodies

Enclosed Bodies

Subframe Bodies

Drop Box Body

Features:

- 18 yd³ hauling capacity
- Available in lengths ranging from 8-15'
- Barn door or single swing style tailgate
- Optional internal D-Rings for strapping down equipment
- Medium or heavy duty grade available
- Mini-rolloff container is designed to haul debris, materials or equipment

Arbor Body

Features:

- Sectional or one piece removable roof
- Single swing or barn doors
- Standard 6" steel ground rollers for smooth operation
- Optional internal D-Rings for strapping down equipment

Subframe Body

Features:

- Ideal for specialized equipment upfits
- Easily transport a liquid tank or applicator
- Lightweight design with sloped front
- Rail slides with no wheels
- 11' or 14' lengths

Dumpster Body

Features:

- 14-20 yd³ hauling capacity
- 50° dump angle
- Manufactured in 3 standard lengths (11', 12' and 14')
- 88" interior & 96" exterior body widths
- Interior side heights 51" or 53"
- Standard 6" steel ground rollers for smooth operation

Flatbed Body

Features:

- 112 ft² of flat space with a fold down ramp in platform bodies
- Ideal for hauling equipment & materials
- Manufactured in lengths from 9'-15'
- Optional beavertail features low profile 4" steel ground rollers
- Bulkhead window for greater visibility

Versa-Fit Bumper

Features:

- 20,000 lb trailer weight capacity
- Standard light package includes stop, turn, tail, reverse, and strobe
- OEM specific bolt on or welded design
- Interchangeable height adjustable ICC bars

Dump Body

Features:

- Carbon steel, stainless steel, or aluminum options
- 2-way tailgate features a ramp gate for drive-on convenience and a dump gate that makes dumping materials easier
- 12" side height & 24" tailgate height
- Drop down sides for curb access
- 50° dump angle

Storage Body

Features:

- Up to 702 ft³ of storage
- Lockable security style doors
- Available in seven standard lengths from 9'-15'
- 72" high sides plus 6" peak roof for walk-in space
- Standard 6" steel ground rollers

Hoist System

Features:

- Designed for class 4-7 chassis cab vehicles with a GVW of 13,500-33,000 lbs and a cab-to-axle of 60-138"
- Available in electric-over-hydraulic (E-Series) or full hydraulic (H-Series)
- Single handed controls (wired or wireless)

VIVAX Line Locators

Vivax has a range of products to accurately locate buried cables and pipes while inspecting the interior condition of metallic and non-metallic sewer pipes. We also offer a range of specialized products for locating faults on cathodic protected pipelines, telecom, and power cables. From the industry's first high-frequency radio line tracer to today's wide range of high performance, easy-to-use locating products, and video inspection cameras, we have acknowledged Vivax as a technology innovator.

vLoc3-Pro - Utility Locator

The vLoc3-Pro utility locator introduces new innovative tools for locating buried utilities, assuring damage, prevention while gathering information for analysis, and two sets of screened 3D color display.

Features:

- Color-coded EM Distortion Warnings
- Cloud-based Data Warehousing
- Internal Data Logging
- Optional Bluetooth Connectivity
- More Frequencies Than vLoc3-Cam
- Alkaline & Li-ion batteries
- USB data point
- Ultra Bright LCD
- Tx-Link option
- IP65 & NEMA 4 rating, lightweight construction
- Full range MLA (marker locator adapter) option

Utility locators are used to locate underground utilities before you even start to dig. Its ability to detect and identify buried utilities prevents digging accidents while providing a safer excavation.

Perspective Screens:

*Classic View Shown To The Left

vLoc3-Cam - Sonde Locator

The vLoc3-Cam is the easiest to use a sonde locator on the market today. Designed with omni-directional antenna array and directional arrows, this locator is equipped to bring ongoing service even when direct connecting is not an option.

Sonde Mode

Locate Mode

Pushrod Trace Mode

Features:

- Digital Flags Dropped When Connecting To Your Phone
- Bluetooth Option For GPS Mapping
- Cloud-Based Data Warehousing
- Alkaline & Li-ion batteries
- USB data point
- Antenna Configuration
- Ultra Bright LCD
- IP65 & NEMA 4 rating, lightweight construction
- High impact ABS plastic
- No ghost signal

VCAMMX-2 - Mini Inspection System

Features:

- 5-watt 512hz, 640hz & 33khz Sonde
- Field-Serviceable Spring Assembly
- Internal Rechargeable Battery
- D18-MX Fixed Position Camera Or D26 Self-Leveling Camera

Popular Accessories

vLoc3-Pro Only:

Remote Antenna

Live Cable Connector

Live Plug Connector

Ground Extension Lead

Fault Locator

Rechargeable Battery Option

Induction Clamps

vLoc3-Pro & vLoc3-Cam:

Li-ion Rechargeable Battery

Vehicle Charging Lead

Sondes

Compatible Transmitters:

vLoc3-Pro & vLoc3-Cam:

5-Watt Transmitter:
Loc3-5Tx

10-Watt Transmitter:
Loc3-10Tx

1-Watt Transmitter:
VM-550FF

Features:

- SD mode for positive location in congested areas
- AC/DC external power source
- Alert line ID available with the vloc3-pro receiver

vLoc3-Pro Only:

25-Watt Transmitter:
Loc3-25Tx

vLoc3-Cam Only:

Envirosight Pipe Inspection

As a leading brand in sewer cleaning equipment, we offer the Envirosight line of sewer cameras for effective inspection and assessment of sewers. Whether for maintenance or repair work, Envirosight has been in use with many businesses and utility services in many places. We are proud to offer such impressive and innovative products to our customers.

ROVVER X

The RovverX is a sewer camera on wheels that are equipped with a camera, lamp, and six-wheel drive. This camera can go further into the complex sewage system as far as 1,000 or 1,650 feet of multi-conductor cable can allow.

Quick Change "Tool-less" Design

Features:

- Standard wireless remote control system
- Selection of 12 wheel types
- Single-screw wheel attachment
- Complete capability
- Detachable automatic lift
- 6-wheel drive
- Proportional joystick to control speed and direction
- Steer and pan the camera at the same time
- Many ways to inspect
- Twin lasers to project measurements
- Full lasers for scanning

Quickview 360

Quickview 360 combines the maneuverability of a pole camera with data capture technology that produces AI 3D models from a 5-minute assessment.

Features:

- One handed operation pole camera
- 3D scanning of deteriorated enclosed spaces
- Wireless tablet operation, viewing and video storage
- HD video
- Easier and faster assessment

SAT II Lateral Launch

Discover the power of our lateral launch inspection crawler that can push past obstacles and maximize productivity. With speed and efficiency, this crawler is sure to bring you the results you need.

Features:

- Versatile
- Adaptable design
- Quickly reconfigure for sewer pipes
- Achieve speeds up to 98fpm
- Reduce downtime
- Steerable 8-wheel drive
- Precision-tuned push rod
- Time efficient
- Affordable
- Easy to maneuver
- Inspection intuitive

Verisight Pro Plus

The Verisight Pro Plus is a push camera inspection system that provides everything you need to inspect laterals and drain pipes while documenting data. It also allows you to generate reports and capture up to 90 hours of images and videos. This sewer inspection equipment allows you to quickly see everything you need to diagnosis drain problems.

Features:

- Crisp color footage
- High resolution PAL imager
- Self-leveling axial camera
- Interchangeable camera
- Adjustable illumination
- Adaptable to a number of specialty applications
- Available with 130', 200', and 330' reel options
- Rechargeable battery
- Ability to capture up to 90 hours of images and video

Jetscan 2.0

We are proud to offer JetScan 2.0 - the fastest, easiest way to see what you're jetting. Quickly capture HD footage of pipes easily and affordably.

Features:

- Network survey
- Safety from toxic discharges and gas line cross bores
- Cleaning validation
- Reducing costs
- Tool selection
- HD video nozzle
- Assess pipe conditions

Take Envirosight on the go!
Many of our products are designed to be portable for your convenience.

Portable

WinCan Wastewater Inspection Software

With WinCan, you can coordinate team members around high-efficiency workflows, leverage AI to find defects and plan rehab, and visualize complex data with an easy-to-use, map-based interface.

Features:

- AI-enhanced, cloud-enabled asset management software
- Manage your wastewater resources and assets in real time
- Find defects and plan rehab with AI
- Easy-to-use, map-based interface
- Consolidates all your asset data on a single platform
- Rehab planning module for automatic reports and budgets

RKI Gas Detection

For over 80 years, RKI Instruments has been at the forefront of sensor technology, developing advanced detection techniques to provide solutions for specific applications. Not only will our equipment protect your life and property from the hazards of gases and vapors, but with proper care, it may also be the last gas detector you will ever need to purchase.

GX-3R 4-Gas Confined Monitor

Smallest & lightest four gas monitor. 2.2" W x 2.55" H x 1.02" D, 3.52 ounces. Simultaneous detection of 4 gases. LEL, O₂, H₂S and CO. H₂ Compensated CO sensor available.

RKI Link Phone App

- Bluetooth communication with iOS and Android phones
- Direct readings from instrument
- Configure instrument settings
- Alarm notifications
- Instrument locator
- E-mail and text alarm notifications

GX-6000 PID Gas Monitor

Our lightweight, GX-6000 PID Gas Monitor is small but packs a punch. With interchangeable battery packs (Li-ion/alkaline), it operates up to 8-14 hours and fully recharges in three hours; making this gas monitor useful and efficient.

Features:

- Two smart sensor slots
- Equipped with a library of over 600 VOC gases
- Large, auto-rotating display
- Designed with LED light source, strong, internal sample pump, man-down alarm, and panic alarm
- Dust and water resistant
- IP67 rated
- Uses Li-ion battery
- Battery provides 14-hour life
- Pump is internal
- Gas ranges: LEL 0-100%, O2 0-40%, CO 0-500ppm, and H2S 0-100ppm
- Easy to use
- Includes 100-240 VAC charger
- Measures 2.6" x 7.8" x 2"
- Weight: 14 oz
- Features visual and audible alarms
- Intrinsic safety IECEx, ATEX, TIIS

GX-2012 Multi-Gas Detector

The GX-2012 is RKI's smallest personal 1-5 sensor gas monitor with a built-in sample pump. Having 3 operating modes, the GX-2012 can be used for confined space safety monitoring in its Normal Operating mode, and leak investigation for underground leak checking in Bar Hole mode.

Features:

- Dependable gas monitor detects LEL, O2, CO, and H2S levels
- Innovative pump pause extends the battery life
- Internal sample drawing pump features 50' range
- Designed with status indicator, 600 hr data logging capacity, barhole test mode, and calibration reminder setting
- Visual alarm LEDs on three sides help alert others in work area of any potential danger
- High-impact rubber overmolding
- Dust and water resistant
- Features visual and audible alarms
- Measures 5.6" x 2.8" x 1.16"
- Weight: 12.3 oz
- Optional external pump
- 2 year warranty

Eagle 2 Portable Gas Monitor

The Eagle 2 features a PID sensor for detecting high or low ppm levels, volume capability, and hydrocarbon detection at the push of a button. The Eagle 2 will continuously operate for over 18 hours, providing you with optimum performance and accurate results.

Features:

- Features 5 different sensor technologies
- PID sensors
- Alarming system designed for a 30 second response time
- TC sensors available for volume
- Data logging standard software
- Auto ranging with combustible gas
- Internal sample drawing pump
- Auto calibration
- Single gas calibration option available
- Change target gas with re-calibration
- Internal and external hydrophobic filters
- Intrinsically safe
- Features alkaline batteries
- Audible alarm silence is available to perform leak investigations without alarming nearby residents
- Features chemical resistant weatherproof enclosure

Wastewater Gas Monitoring

This unique tri-sensor head can be used either indoor or outdoors. Designed with a splash guard and flame arrestors for water and wastewater applications including wet wells, dry wells, bar screens, lift stations, digesters, thickeners, pump stations, and confined spaces.

Features:

- Equipped with 3 sensors
- Infrared sensors available
- Interfaces with Beacon 410 controller
- Available for LEL, O2, H2S, and CO
- Water repellent patented sensor coating
- Long life sensors

Single Gas Personal Monitor - GasWatch 3

The GasWatch 3 is the world's smallest and lightest single-gas monitor. Weighing just 1.6 ounces, its compact form affords great comfort and flexibility in how you choose to wear it. It can be worn on your wrist like a watch or clipped into your breathing zone on your lapel, hard hat, or other safety equipment with its alligator clip. This personal monitor is designed to provide continuous protection from various harmful gases while monitoring oxygen deficiency. Contact us today to order a set for you and your team!

Features:

- Five versions to choose from CO, H₂S, or O₂
- CO Hydrogen-compensated and dual CO/O₂
- Three-year warranty with a two-year warranty for O₂ sensor
- Up to 4,000 hours of operation from one small, replaceable battery
- Sturdy IP-66/68 rated design
- Data logger, vibration
- Quick calibration
- Peak value display
- Temperature display

Sonetics Wireless Headsets

Avoiding loud noises isn't always possible. For people who work in construction, public works, manufacturing, transportation, and other vital industries, loud noises are simply a matter of day-to-day life. Protect hearing without disconnecting you from your surroundings with Sonetics wireless headsets and accessories.

APEX 3-Series DECT7 Wireless Headsets

Designed with team communication in mind and excellent range, these headsets are ideal to keep your team safe. With listen-through technology, you are in control of how much outside sound you let in for awareness and safety. This remarkable technology allows you to hear what is important while protecting yourself from NIHL.

APX377

Features:

- Includes DECT7 Wireless Technology
- Hands-free operation
- All-day comfort
- Extended battery life up to 24 hours

APX379

Features:

- Stereo listen-through
- Site-covering range
- Better protection
- Includes personal sound dosimeter

Personal Headsets With Advanced Hearing Protection

Sonetics next-generation direct-wire headsets pick up where foamies and earmuffs leave off. Protect your hearing while you get the job done. Experience all-day comfort and rugged performance in high noise environments. Models APX373 and APX379 include a talk related feature in their design.

APX372

APX373

APX379

Features:

- Hands-free operation
- All-day comfort
- Stereo listen-through

All headsets are available in a variety of color options.

DECT7 Portable Wireless ComHub

Features:

- Rugged bag design
- Share & share alike with 2-way radio connection
- Connect up to 15 Apex 3-Series wireless headsets
- Pair an APX379 wireless headset simultaneously with up to four SON150 wireless base stations
- Multi-channel system
- Two-way radio integration
- DECT digital encryption
- Connect up to 100 Apex 3-Series wireless headsets

User System Configurations

Up to 3 Users

Up to 5 Users

Up to 10 Users

Contents:

- APX377 or APX379 wireless DECT7 headsets; number of headsets in each pack based on number of users for each configuration is designed for (ie. 3, 5, 10)
- Battery-powered portable Com-Hub with DECT17 wireless base station
- Waterproof
- With 12V or 120/240V charging options

Portable Radio Cable Adapters

Connect your Apex 3-Series wireless headset or Portable Wireless ComHub to a portable two-way radio. Compatible with more than 400 radio models from manufacturers like Motorola, GE, Ericsson, Harris, ICOM, Kenwood, Maxon, Midland, Relm, Standard, Tait, Vertex, and many others.

Features:

- One-to-one or one-to-many
- Split push-to-talk
- Connect with no additional tools
- Easy to use
- Essential for team communication
- Transmit over either a ComHub connected portable radio and/or one direct-wired to the headset

Lightbars

Cenator™

Features:

- Lighthouse modules mount in any position
- Extruded aluminum platform
- Advanced thermal design to improve LED performance
- Optional red, blue, or amber internal filters
- Clear outer domes with optional color tops

Freedom® IV DYAD™ Series

Features:

- Linear super LED technology
- Extruded aluminum platform
- Center dividers with liquid injection molded seals
- One piece UNI-DOME construction
- Advanced thermal design to improve LED performance

Legacy® Series

Features:

- Extruded aluminum platform
- Advanced thermal design to improve LED performance
- Aluminum top repels hail and other environmental damages
- Center dividers with liquid injection molded seals
- Available in clear or smoked lenses

Liberty™ II Series

Features:

- Aluminum top repels hail and other environmental damages
- Center dividers with liquid injection molded seals
- Advanced thermal design to improve LED performance
- Extruded aluminum platform
- Available in clear or smoked lenses

Justice® Series

Features:

- Advanced thermal design to improve LED performance
- Extruded aluminum platform
- Easily upgraded or serviced in the field
- Available in clear or smoked lenses
- Brake, tail and turn options available

Towman's Series - Liberty II - Century - Freedom IV - Justice

Features:

- Newly designed Freedom IV platform available
- Designed exclusively for the rigorous standards of the Fire/EMS market
- Meets the Zone "A" upper requirements of all NFPA 1901 specifications
- Brake/tail/turn option available

Mini Lightbars

Responder® HD Series

Features:

- Universal permanent mount version easily retrofits most competitive model footprints
- Permanent bolt mount versions include 6" pigtail
- Magnet mount and magnetic/suction versions include 10" straight cord with cigar plug with LED on indicator

Responder® R1LP Series

Features:

- Super LED low profile conical CON3 mini lightbar
- Polycarbonate dome
- Available with extruded aluminum base or polycarbonate base
- Available in permanent, magnetic/suction mount models

Responder® R2LP Series

Features:

- Super LED low profile linear LIN6 mini lightbar
- Polycarbonate dome
- Available with extruded aluminum base or polycarbonate base
- Available in permanent, magnetic/suction mount models
- DUO technology model has different color LEDs

Mini Century™ Series

Features:

- Extruded aluminum base
- Standard current switching
- Scan-Lock flash patterns
- Pattern override
- Low profile

Mini Cenator™ Series

Features:

- SAE class 1 certified
- Four LIN6 lighthead
- Magnetic mount
- Permanent mount with 20' cable
- Advanced thermal design

Mini Justice® Series

Features:

- Super LED CON3 modules
- Linear super LED corners
- Permanent modules
- Low profile
- 2.25" high

Mini Freedom® IV Series

Features:

- Linear super LED technology
- Advanced thermal design
- Aluminum top repels several environmental damages
- Center dividers

Mini Liberty™ II Series

Features:

- Available in SOLO
- Advanced thermal design
- Aluminum top repels several environmental damages
- Extruded aluminum platform
- One piece UNI-DOME
- Scan-lock flash pattern switch

Mini Legacy® Series

Features:

- Aluminum top repels several environmental damages
- Advanced thermal design
- Center dividers
- Extruded aluminum platform
- One piece UNI-DOME
- Scan-lock flash pattern switch

Traffic Advisors

Traffic Advisor™ Rear Slot Mount

Features:

- Interior or exterior applications
- Extruded aluminum housing
- 15' cable standard, extra length cables available
- Fully encapsulated

Traffic Advisor™ Dominator Series - Dominator Plus

Features:

- Interior or exterior applications
- Extruded aluminum housing
- 15' cable standard, extra length cables available
- Fully encapsulated

Traffic Advisor™ Flat Mount

Features:

- TAM65, TAL65, TA4437M
- Interior or exterior applications
- Extruded aluminum housing
- Fully encapsulated

- 15' cable standard, extra length cables available
- Split arrow & warning function
- 5 year warranty

Traffic Advisor™ Front Load

Features:

- Interior or exterior applications
- Extruded aluminum housing
- Fully encapsulated
- 5 year warranty
- Split arrow & warning function
- SAE class 1

Traffic Advisor™ Dominator Series - Dominator Plus

Features:

- TAC8 includes control head
- Black extruded aluminum housing
- 15' cable standard, extra length available
- Rear drip switch provides 8 flash patterns

Traffic Advisor™ Flat Mount

Features:

- Extruded aluminum housing
- 15' cable standard, extra length available
- Left arrow, right arrow, split arrow, and warning functions
- Fully encapsulated
- 5 year warranty
- SAE class 1

Lightheads

ION™ Series*

Features:

- SOLO, DUO, & TRIO models available
- Single or split colors
- Available with smoked lenses

ION™ Mini T-Series*

Features:

- Available in 3-in-1 combination
- Single color models have combination with 180° and TIR directional warning
- Black, white, or chrome housing
- Available with smoked lenses
- Ground illumination light
- Spotlight color

Micron™ Series*

Features:

- Surface mount installation
- Fully encapsulated
- 5 year warranty
- R65 class 1
- Hard coat
- Scan-Lock technology

TIR3™, LIN3™, LINZ6™, & LINV2™ Series*

Features:

- 5 year warranty
- Black polycarbonate mounting flange
- Fully encapsulated
- Scan-Lock technology
- Hard coat
- R65 class 1

Vertex™ Series

Features:

- Self-contained light
- Available as omni-directional
- Designed to mount in composite
- Clear outer lens, color LEDs

OS™ Series

Features:

- Fully encapsulated
- 5 year warranty
- Includes chrome housing
- Clear outer lens, color LEDs

2G & 5G Series

Features:

- SmartLED design requires no external flasher
- Fully encapsulated
- Includes mounting grommet

4" Round Series

Features:

- Supplied with an adapter for PAR-36 (4.5") applications
- Fully encapsulated
- 5 year warranty
- Hard coat
- Scan-Lock technology
- SAE class - 1

Strip-Lite™ Plus Warning Light

Features:

- Symmetrical center positioned wire exit
- Includes a 12" pigtail
- Low current consumption
- 5 year warranty

400 Series

Features:

- Linear super-LED available in single or dual level warning
- Fully encapsulated
- 5 year warranty
- Available with clear or color lenses

500 Series

Features:

- 5 year warranty
- Linear super-LED available in single or dual level warning
- Available with clear or color lenses
- Fully encapsulated

600 Series

Features:

- Linear super-LED
- Rota-Beam models available
- Available with clear or color lenses
- Available in steady-burn or with internal flasher
- Surface mount and recess mount models
- 5 year warranty

Illumination

Pioneer Micro™

Features:

- MPPBCS, MPPB, & MPRW
- 8" spotlight pattern comes standard
- Includes three additional optic lenses for a light pattern
- Optic lens changes easily
- Injection molded polycarbonate lenses are impact resistant
- Solid-state electronics
- Recessed 15° angle mount with chrome flange
- Low profile pedestal mount available

Pioneer LiFe™ Series

Features:

- LF35
- Floodlight lens included
- 8" TIR spotlight lens
- 100% solid-state electronics
- Impact resistant glass
- Reinforced safety yellow nylon housing
- Adjustable ratcheting mechanism allows for a 180° range of uninterrupted light
- Up to 7 hours of runtime in battery saver mode
- 4-5 hour full charge time
- Rated for more than 2000 charging cycles
- Short circuit
- Thermal protection
- Hard coat
- 5 year warranty
- AC charging available

PAR Replacement Lamps

Features:

- Includes 6" pigtail
- Handheld units
- Includes 90lb pull magnet mount
- Available with clear or smoked lens
- 5 year warranty

PAR-36

Features:

- Floodlight spotlight models
- Black cast aluminum housing
- Super-LED with low current draw
- Stainless steel bracket
- Hardware included
- Two intensities available

Handheld Spot/Floodlights

Features:

- 90° pull magnet
- 8" coiled cord
- Cigar plug
- Built-in push button
- Hard coat
- 5 year warranty

Rubber Housing Spot/Floodlights

Features:

- Rubber stud/swivel housing
- Available with or without lighthead
- Hard-coated lenses
- 5 year warranty

Switches & Controls

Designed for durability and simplistic use, Whelen provides you with various power control centers and switches. The compact and economic PCCW Series is engineered for complete control of numerous auxiliary light functions.

Power Controls Center

Features:

- Backlit function windows
- Handheld or mounted to the dash or console
- LED "On" indicator
- 2 year warranty
- Up to 12-hour battery life

Here at Haaker Equipment Company, we promise to bring you the best from trusted brands like Whelen!

Federal Signal - Light Bars

We know your number one priority is safety, which is why we offer products from Federal Signal. Seeing and being seen requires lightbars, beacons, and more. Keep you and your team safe from dawn to dusk.

Allegiant™ Discrete

Features:

- Low power mode
- Two-color capability
- Low-profile
- Linear LED light bar

Allegiant™ Serial

Features:

- Top domes available in amber, black, blue, grey, clear, and red
- Low power mode
- Two-color capability

Legend® LPX Discrete

Features:

- Low-profile
- Linear LED light bar
- Top domes available in amber, black, blue, grey, clear, and red

Legend® LPXH Tow Discrete

Features:

- Low-profile
- Linear LED light bar
- Controlled flash pattern feature

Legend®

Features:

- Low-profile
- Top domes available in amber, black, blue, grey, clear, and red
- Linear LED light bar
- Low power mode
- 5 year warranty

Navigator® Discrete

Features:

- High-profile
- Linear LED light bar
- Cable LED light bar
- Includes Solaris LED reflector technology
- 5 year warranty

Navigator® Serial

Features:

- Linear LED light bar
- Front flood capability
- High-profile
- Includes Solaris LED reflector technology

Integrity™

Features:

- Top domes available in amber, black, blue, grey, clear, and red
- Low-profile
- Three-color capability
- Includes Solaris LED reflector technology

Valor®

Features:

- Low-profile
- Non-linear V-shaped light bar
- 5 year warranty
- Includes Solaris LED reflector technology
- Front and rear flood

Mini-Light Bars

18" and 25" Navigator®

Features:

- High-profile
- Cable LED light bar
- Solaris LED reflector technology
- Two-color capability

21" Allegiant®

Features:

- Low-profile
- Linear light bar
- Traditional and serial versions available

HighLighter™ LED Pro

Features:

- LED mini-light bar
- Low-power mode
- Low-profile

HighLighter™ LED & LED Plus

Features:

- Uniform 360° light
- Low-profile
- LED mini-light bar

24" Legend® LPX Discrete

Features:

- Low-profile
- Cable LED mini-light bar
- Selectable flash patterns
- Includes Solaris LED reflector technology
- 5 year warranty

LED Beacons

Pro LED Beacon

Features:

- High-profile and low-profile
- Single and dual color versions available
- Low-power mode

Contact us today or visit us online to view our full line of Federal Signal products!

Pulsator® LED

Features:

- High-profile and low-profile
- Selectable flash patterns
- Built-in permanent pipe mount

UltraStar® LED

Features:

- LED Beacon
- Selectable flash pattern feature

SLR Beacon

Features:

- Rotating LED beacon
- High-power
- Built-in permanent, 1" pipe mount
- Multi-voltage
- LED reflector
- 5 year warranty

AL2

Features:

- High-profile
- Single flash pattern
- Multi-voltage
- SAE class 2

LP800 LED

Features:

- Dual level beacon
- Selectable flash patterns
- Built-in 1" pipe mount

LP800 LED - Accessories

Features:

- Two-tier solaris LED reflector technology
- Base Din Mount

Model 651 & 851 LED

Features:

- High-profile and low-profile
- Multiple voltage
- Polycarbonate dome

Firebolt® LED

Features:

- Low-profile
- Multi-voltage
- Class 2 & Class 3
- 5 year warranty

Strobe Beacons

Firebolt® Plus

Features:

- Low-profile
- Rubber base resists corrosion and absorbs harsh shock
- 3 year warranty
- Replacement parts are available for order

Model 401

Features:

- Low-profile
- Polycarbonate dome and base
- Multi-voltage
- Replaceable strobe tube
- SAE class 3

Directional Lighting

Latitude™ SignalMaster

Features:

- Available in 6- or 8- head models
- Three-LEDs per light head
- Interior and exterior mounting brackets available
- Co-extrusion
- Equipped with on-board circuitry
- 5 year warranty

CN SignalMaster™

Features:

- Three-color capability
- Built-in SignalMaster
- Internal or external use
- Includes Solaris LED reflector technology
- 5 year warranty

Escape 72" SignalMaster™

Features:

- Available with amber or clear domes
- 6x4 QuadFlare
- 5 year warranty
- Includes Solaris LED reflector technology

SignalMaster™ Controls

Features:

- Multi-voltage
- One controller operated
- 8-lamp directional lights
- 14 SignalMaster patterns
- AUX IN and AUX OUT
- Turn signal override
- Tactile switch panel
- 3 year warranty

Exterior Mount/Perimeter Lights

IMPAXX®6 & IMPAXX®3

Features:

- LED perimeter light
- SpectraLux
- Multicolor LED technology
- One controller operated
- Waterproof housing
- LEDs offered in amber, blue, green, red, and white
- Fully encapsulated
- 25 flash patterns

MicroPulse® Wide Angle 9

Features:

- Utilizes 9 LEDs
- 12 flash patterns
- UV resistant polycarbonate lens
- 3 year warranty
- Available in chrome

MicroPulse® Wide Angle 6

Features:

- Utilizes 6 LEDs
- 27 flash patterns
- Black bezel included
- Optional white bezel
- Steady burn model
- 3 year warranty

MicroPulse® Ultra**Features:**

- Multiple mounting options features
- 27 selectable flash patterns available
- UV resistant polycarbonate lens

MicroPulse® Ultra Dual**Features:**

- Flash as solid or dual light head
- Multiple mounting options features
- Low-profile
- 3 year warranty

MicroPulse® C Series**Features:**

- Superior warning
- High-powered LEDs
- Single and split color models available
- Low-profile

MicroPulse® Flashing/Marker**Features:**

- Superior warning
- High-powered LEDs
- FVMSS marker light
- Warning light
- Low-profile

FireRay® 4x3**Features:**

- IPG7 rated for extra protection
- Available in single or split color
- Optional chrome bezel

FireRay® 6x4**Features:**

- IPG7 rated for extra protection
- Warning lights
- Surface mounts easily
- Low power feature

FireRay® 7x3**Features:**

- Available in single or split color
- IPG7 rated for extra protection
- Optional chrome bezel

FireRay® 9x7**Features:**

- Surface mounts easily
- Low power feature
- IPG7 rated for extra protection
- Warning lights

QuadFlare® 4x3**Features:**

- Optional chrome-plated trim bezel available
- Solaris LED reflector technology feature
- Enhanced design
- 5 year warranty

QuadFlare® 6x4**Features:**

- Includes Solaris LED reflector technology
- Unique Quad-X patterns
- Built-in flasher feature
- 5 year warranty

QuadFlare® 7x3**Features:**

- Solaris LED reflector technology feature
- Optional chrome-plated trim bezel available
- Built-in flasher feature
- 5 year warranty

QuadFlare® 9x7**Features:**

- Built-in flasher feature
- 5 year warranty
- Solaris LED reflector technology feature
- Optional chrome-plated trim bezel available

4200s

Features:

- Surface mount for 4-LED light head
- 12 selectable flash pattern
- 12VDC
- Suitable for external and internal mounting options
- Available in amber or white LEDs
- Includes black mounting bezel (optional white or black available)

SignalTech® LED Lights

Features:

- Sealed wiring harness
- Random, alternating, or synchronous flash patterns available
- 3 year warranty

Corner® LED Lights

Features:

- Built-in selectable flash patterns available
- Designed with two models of operation
- Dual color models
- 5 year warranty

Area Lighting

Wireless VisiBeam® / VisiBeam®

Features:

- High-power spotlight
- Superior work area illumination
- Ergonomic design
- Wireless transmitter
- Can connect up to 4 transmitters

You can trust us to bring you products that are designed well, and built to last multiple projects

Mobile Cameras

PBX Series Push Bumper

Features:

- Mount kit included
- Center cross plates and predrilled uprights
- Heavy duty 4 gauge steel uprights
- Wide rubber strips

Mobile Camera Systems

Features:

- High-resolution camera
- Sony CCD cameras
- TFT-LCD color monitors
- Multiple camera lengths available upon request

MB1 LED Message Board

Features:

- Public safety messaging system technology
- LED message display
- Suitable for interior or exterior mounting
- Hardware kit included

Mounting Bars

Features:

- Mounts any type of warning light
- Works with directional lights and work lights
- Accommodates mini and full light bars

Elgin Sweeper Parts

Haaker Equipment Company is recognized as an OEM factory authorized supplier of Premium Quality Elgin Sweeper parts. We supply several Elgin OEM brooms and parts from bearings to conveyor belts. Contact us today or visit us online to view our full line of products and learn more.

Main Brooms

Standard Tube Broom

Features:

- 100% virgin polypropylene
- Abrasion resistant for longer life
- Outstanding surface coverage and flicking action
- One-piece broom unit

Heavy-Duty Tube Broom

Features:

- 100% virgin polypropylene
- Best surface coverage
- More filaments per inch
- Steel tube core
- One-piece broom unit

Strip Broom

Features:

- Outstanding sweeping results
- Easily refilled core for quick change-out
- 100% virgin polypropylene
- Durable steel cores

Saver Sweep Broom

Features:

- Five tight end wraps
- One-piece unit for fast, trouble-free replacement
- 100% virgin polypropylene
- Abrasion resistant

Combination Sweep Tube Broom

Features:

- Combination of polypropylene and wire filaments
- Loosen and sweep up more compacted debris
- Abrasion resistant

Wafer Section Broom

Features:

- 100% virgin polypropylene
- Galvanized spring steel wires
- Steel spacers
- Durable one-piece cores are easily configured and refilled

Extension Brooms

Extension Broom

Features:

- One-piece unit for fast, trouble-free replacement
- 100% virgin polypropylene
- Consistent red color extrusion
- Abrasion resistant

Center Brooms

Center Broom

Features:

- 100% virgin polypropylene
- Compact size
- Easy to ship and store
- Short, dense filaments
- Lightweight

Combination Sweep Extension Broom

Features:

- 100% virgin polypropylene
- Galvanized spring steel wires
- One-piece unit for fast, trouble-free replacement
- Heavy 16 gauge tubing

Combination Center Broom

Features:

- 100% virgin polypropylene
- Galvanized spring steel wires
- Short, dense filaments
- Compact size
- Easy to ship and store

Side Brooms

Side Broom

Features:

- Heavy-Duty option available
- Superior steel wire for extended sweeping hours
- High-impact
- Non-rusting plastic segments

Polypropylene Side Broom

Features:

- Polypropylene filaments
- Spark resistant
- High-impact
- Plastic block segments
- Non-abrasive sweeping

Aggressor XR Side Broom

Features:

- Combination of cable and wire bristle for compacted debris
- One-piece design for easy removal and replacement
- Steel mounting

Aggressor XT Side Broom

Features:

- Rugged, welded construction
- One-piece design for easy removal and replacement
- Steel mounting
- Heavy-duty

Service

We supply top quality workmanship in a timely and professional manner while servicing our customers with our TAP Principals. Our Parts and Service Departments are staffed with factory-trained pros who work hard every day to keep our customers' machines up and running. Check out the many services we offer!

Valve Service

- Kunkle valve service: 1-hour per valve
- Knife service: 1-hour per valve
- Butterfly valve service: 30 minutes per valve

360° & 4-Hour Inspection

- Thorough inspection to ensure all safety items are operating properly
- All units are lifted and inspected to do a thorough and complete inspection
- In-depth testing to certify the unit is running efficiently
- Haaker is an authorized dealer with factory trained & certified technicians

U-Bolt Service

- Torque all U-bolts per manufacturer guidelines
- Complete underbody inspection and lubrication of all zerk fittings
- Help eliminate unwanted expensive repairs

A/C Service

Have an issue with your A/C? Let our ASE certified staff inspect your equipment's A/C system.

Keep your operators cool and productive all day long.

Chassis Diagnostics

- Keep your equipment running without having to send your equipment to multiple service providers
- Bring your equipment to us so we can identify the best route for repair

Air Compressor Add-On For HXX Units

Here at Haaker Equipment Company, we offer a ready-to-go air compressor retro kit from Vanair®. This kit is designed to operate by diverting the hydraulic flow from the water pump to the air compressor.

- 185 cfm @ 100 PSI air compressor add-on for HXX units; subject to hydraulic capabilities, available space on unit.
- Save water while excavating with compressed air
- Turn your unit into a multi-purpose excavating machine
- No additional trucks or personnel needed on job sites
- Ability to re-use soil that has been removed from the excavated area

Tool-less Rotatable Upper Boom Hose

- Prolong the life of your upper debris hose
- This kit will give your operators the capability to rotate the wearable section of the upper boom hose on the fly
- No tools needed

Quarterly Service Agreements

Let our service teams come up with a custom service plan for your equipment.

- All equipment has designated service intervals
- We have the experience to maintain your equipment based on how the unit is being operated

Vanguard Install

When bacteria lingers, it can become deadly. The Vanguard System blasts off disease-causing germs with antibacterial-infused water to help destroy pathogens.

- Installation by our skilled service team
- Reduce harmful bacteria by up to 98%
- Air purge ability that clears the waterline when operating in freezing conditions
- UV-stable concentrate that remains at liquid-state to a temperature of -30° F
- Sani-Solution uniquely formulated to help sanitize tools and surfaces

Factory Authorized Rebuild Program

Update and refresh your equipment as a whole to extend the life of your equipment and ensuring all components meet factory standards.

- All technicians are factory trained and certified to work on your equipment
- A factory quality rebuild in your local area
- Free inspection if quote is approved
- All-points vehicle inspection from an authorized dealer
- Receive between 5-10% off OEM parts
- Rebuild your equipment with genuine OEM parts

Custom Fabrication To Resolve Your Needs

Let our talented staff provide the solutions that you need in order to keep your equipment running at its peak performance. No idea is too big or too small! We have certified welders that can make your idea become a reality.

Anti-Splash Device For Boom

- A simple "check valve" plate installed on the inside of the debris body and prevents debris spillage from going out of the front boom inlet
- This plate simply closes when transporting and opens when the blower is engaged

High Flow Debris Body Washout Nozzle

- The newly designed nozzle is serviceable
- Provides a large amount of flow to clean out your debris body efficiently and effectively

As an essential business to multiple municipal agencies and a business that is focused on cleaning, we stand ready to help all our customers in any way that we can from servicing, training, procuring and renting equipment.

Skid Plate For Electrical & Water Hose

We have designed a robust skid plate to help reduce downtime by protecting the electrical, hydraulic and water lines.

Float Ball Indicator Screen

We have designed this float ball screen to prevent bags and other hanging debris from latching onto the float ball arm which affects the operators' ability to see how much debris they have in their debris body.

10" Knife Valve

- In the scenario where your operators can't pump off or decant, we have the solution to protect your equipment
- Custom fabricated for your unit to protect your investment

We stand on our promise to resolve your concerns while exceeding expectations and keeping your machines running at peak performance!

Quick Release Tube Racks

- Upgrade your 2100 classic trucks to decrease operator fatigue
- Reduce rubber bungee cord failures by eliminating the use of bungee cords

Bumper Modification For Hose Reel

- Custom bumper modification helps prolong the life of the rotek
- No additional steps for your staff
- Once the bumper stop is installed it helps hold the rotek in place and helps prevent movement from the rotek while transporting

HXX Circuit Add-On

Make your standard combination sewer cleaner into a powerful multi-purpose digging machine.

Training

"We at Haaker Equipment are proud of our customer-first mentality through a team that is encouraged and empowered to provide excellent service. As we look forward to what the future holds our family culture ensures that we will keep our priorities of providing the best products and services. With specialists in sewer equipment, street sweeping, sewer inspection, and general cleaning we can help guide our customers to make an informed and positive decision. We look forward to being your partner through each purchase for years to come." - Robin Haaker, President

Part of our commitment to you is to provide you with great service. How we do this is through our excellent and thorough training program. We offer training for our team and for our customers by providing video series and literature. Check out some of our training playlists here:

- New IntuiTouch™ single in-cab control screen
- Singular and adjustable control panel
- Optional wireless controls
- New optional RDB 1015™ Rapid Deployment Boom
- 7" touch screen control
- Includes controls and viewing screen for camera, lighting, and recirculation
- PTO/Transfer case activation
- One-touch engagement
- Articulating controls

Vactor 2100i PD

Features:

- Blower offerings to provide inlet volumes
- 18 Hg vacuum
- Unique design
- Productive multi-stage blower filtration system
- Operator-friendly
- 7" touch screen control
- Includes controls and viewing screen for camera, lighting, and recirculation
- PTO/Transfer case activation
- One-touch engagement
- Articulating controls

TRUVAC Hydro Excavator Trucks

FLXX

Features:

- Air and Hydro
- 16" - HG
- 10gpm @ 3,000 P.S.I.
- Larger capacity available in 9yd³, tandem axle

Paradigm

Features:

- 6" vacuum system
- Single engine
- Class 6, Non CDL
- Contain and dispose of mud
- Built with safety in mind

HXX Full Size

Features:

- 8" vacuum system
- 12yd³ or 15yd³ debris body
- 10 or 20gpm @ 3,000 P.S.I.
- Decrease cost of digging
- Less-invasive

Elgin Street Sweepers

Crosswind

Features:

- Highly efficient air conveyance system
- High volume
- Superior air routing path and vacuum source
- One-pass pickup

Broom Bear

Features:

- Enhanced productivity
- Maximum strength
- High torque diesel engine
- Ultimate reliability and power
- Single engine layout
- Better fuel efficiency

Broom Badger

Features:

- Compact mechanical sweeper design
- Dual-engine sweeper
- Low-profile design
- Mounted on an Isuzu NR
- Easy to operate and service

RegenX

Features:

- Single engine or dual engine
- Large-capacity hopper
- PM-10 compliant
- 50° dump angle
- Easy to operate and service
- Smooth design

Harben Trailer Jettors E180/ET180

Features:

- Single or double axle trailer
- 375 or 750 gallon capacity
- 18 gpm @ 4,000 P.S.I.
- Cleans pipes from 1" to 18"

Features:

- Rugged "Pro-TECT-it" frame
- Stainless steel panels
- Simple to use controls
- Industrial engines

HD Series

Features:

- Adjustable temperature
- Safety relief valve
- Heavy-duty industrial motor
- Downstream chemical injection

SM Series

Features:

- Portable and compact
- Up to 4 gpm at 4000 psi
- Electric start 14 hp Kohler engine
- Lifetime coil warranty

HN Series

Features:

- Cold and hot water stationary skid
- Up to 4 gpm at 3500 psi
- Natural gas, propane, or diesel
- Stainless steel housing frame

Cold Water Pressure Washers

CPS Series

Features:

- Panel mounted unloader
- Belt drive pump
- Includes nozzles with insulated quick couplers

CPX Series

Features:

- High output engines
- Steel control panel
- Remote fuel tank
- Belt guard

Accessories

Hydro Twister

Features:

- Convertible undercarriage surface cleaner
- Use with hot or cold water
- Rust resistant
- Additional nozzle sizes available

Hose Reels

Features:

- Can be mounted anywhere
- 180° swivel
- Shipped fully assembled
- Designed with a lock pin
- Made in the USA

Surface Cleaner

Features:

- High cleaning speed
- Works with hot and cold water
- Effectively removes grease
- Gets the job done quickly

Trailer & Tank Skids

ProTowWash® Portable Commercial Trailer

Features:

- Powder-coated steel frame
- High capacity water filter
- Water-tight seal

Walk Behind Floor Sweepers

Here at Total Clean, we are committed to maintaining the health and safety of all workers. Part of that commitment is offering effective silica dust exposure control plans that are customized to meet the needs of every organization. With a 99.9% filtration efficiency, our equipment by PowerBoss holds our safety measures to the highest standard.

Advance SW900

Features:

- For indoor and outdoor use
- Large main broom with dual side brooms to enhance productivity
- Ideal for cleaning contractors, industry and manufacturing, schools, hotels, warehouses, and exhibitions

PowerBoss Collector 34

Features:

- High sweeping performance
- 100% hopper capacity
- Powerful dust filter
- Heavy-duty steel frame
- Parking brake with automatic release

Advance Terra 28

Features:

- 28" wide sweep paths
- Side broom eliminates the need for edge cleaning after sweeping
- Compact and easy to maneuver
- Sweeps quietly
- Greater productivity

Ride-On Floor Sweepers

If you are looking to remove debris from large areas, we have a product for you! Total Clean is the leading sweeper distributor for street sweepers, parking lot sweepers, truck sweepers, road sweepers, and industrial sweepers. We are proud to be one of the leading Nilfisk-Advance, PowerBoss, NiteHawk, and Elgin sweeper dealers in the country that services California, Arizona, and Nevada by offering a vast range of sweeper sales, parts, and services.

Advance SW8000

Features:

- Heavy-duty, outdoor sweeper
- Up to 77" sweeping path
- Dust Guard™ fog system
- 60" multilevel high dump

Robotic Floor Care

Features:

- Autonomous scrubber
- Consistent cleaning
- Auto fill-in feature
- Service and training included

PowerBoss Armadillo 9X/10X

Features:

- All steel construction
- Full service 180° swing-out engine
- Up to 84" sweeping path (dual side brooms)
- Dual synthetic panel filters
- Oversized curb climbing tires

PowerBoss Atlas

Features:

- 64" sweep path
- 60" multilevel high dump
- Safety vision dump window
- Power control dust collection system
- Heavy-duty design

Outdoor Vacuum Sweepers

Our outdoor vacuum sweepers by Madvac and Glutton are the perfect solution for cleaning public spaces. Whether you are looking for compact models ideal for tight urban spaces or 100% electric litter vacs, we've got you covered.

Madvac LS175

Features:

- High profile approach to cost effective vacuuming
- 2000 CFM rating
- 2 gpm at 1800 psi super wash
- High dumping with 1.75 yd³ hopper

Madvac LN50

Features:

- All terrain litter picker
- Diesel or electric powered
- 48" wide for narrow spaces
- 6 position joystick arm control
- 15 ft wander hose

Glutton Collect

Features:

- 100% Electric with up to 16 hours of run time
- Compact, maneuverable and self-propelled to climb steep slopes & uneven terrain
- 24 M2 Glutton dust filter
- High suction power and variable speed

Walk-Behind Floor Scrubbers

We provide the leading floor scrubbing machines that help you clean more efficiently. Our machines redefine maneuverability with their innovative designs and powerful scrubbing in just one pass.

Advance 750 & 800 ⚡

Features:

- Low-maintenance
- High productivity
- Continuous scrubbing
- Reduces dump/refill cycles
- Burst power feature
- Minimize water usage

Advance SC900 ⚡

Features:

- Core task focused
- Removes common complexity routinely associated with floor cleaning equipment
- Lower overall cleaning cost
- Easy to operate and service

PowerBoss Phoenix 24 ⚡

Features:

- Cylindrical brush deck
- Integrated scrubbing function
- Corrosion-resistant aluminum coating
- Flow-optimized dirty water tank
- Easy, ergonomic operation

PowerBoss Phoenix 26 ⚡

Features:

- Compact disc brush scrubber
- 26" cleaning path
- Easy-to-use controls
- Low brush deck design
- Cost-effective solution

PowerBoss Phoenix 30 ⚡

Features:

- Two powerful brush motors
- 20% water and chemical savings
- Easy-to-understand
- Designed to give the operator more room for their feet while operating

Ride-On Floor Scrubbers

Floor scrubbers in their simplest forms are devices for cleaning floors. These can be basic implements like floor brushes, mops, and ride-on and walk-behind machines. These machines are generally used to clean up bigger floor spaces with their water injection systems that flush cleaning solutions and water on to the floor.

PowerBoss Nautilus HD

Features:

- Hot water option available
- Easy access debris tray
- Adjustable squeegee feature
- Edge scrubbing
- Stainless steel scrub deck

PowerBoss Admiral 30"

Features:

- Compact, maneuverable, & ergonomic
- Guided wheels
- Sealed drive motor
- 30" cleaning path
- Easy access

Scrubmaster B120/B175/B260

Features:

- No tools - Brush/Squeegee change
- Stainless steel components
- Onboard diagnostics
- One-touch all function buttons

Advance SC6000

Features:

- SmartFlow™ technology
- No tools - Brush/Squeegee change
- SmartKey™ system

Advance SC6500

Features:

- Effortless control and efficiency
- Sustainable scrubbing

Advance Adgressor

Features:

- Ease of operation
- SmartFlow™ technology
- SmartKey™ & supervisor key settings
- Maximum operator safety

Ride-On Sweeper-Scrubbers

Want to impress your customers while growing your contract cleaning business? The key is delivering high-quality results every time. Our Advance floor scrubbers and cleaning equipment will help you do just that.

Powerboss B400 RH

Features:

- 100% electric with up to 7 hours of run time
- 48" scrubbing path and 65" sweeping path with dual side brooms
- 106 gallon solution and recovery tanks

Advance SC7010

Features:

- Hybrid technology and Ecoflex™
- ClearView™ sight lines
- SmartFlow™ tilt out recovery tank
- Heated water, pressure washer

Advance 7765

Features:

- Large sweep & scrub path
- 100 GL recovery/solution tanks
- Designed for up to 600 lbs of downward brush pressure

Parking Lot Sweepers

The NiteHawk parking lot sweepers are designed to increase performance and productivity. At a full stroke, the design of the hydraulic-powered pump makes our NiteHawk trucks perfect for tough sweeping jobs.

NiteHawk Osprey II

Features:

- GMC / Ford chassis
- Stainless steel hopper
- Oversize access doors
- Rear storage toolboxes
- High flow fan
- Maximum capacity in a low profile sweeper

NiteHawk Raptor II

Features:

- Advanced hydraulics
- "Stealth Sweeping" system
- 5-year warranty
- Lowest cost of operation
- Stainless steel hopper
- High visibility and innovative controls

Classic ⚡

Features:

- 4,000 lbs towing and 1,400 lbs payload capacity
- Versatile truck bed measuring 63" x 48"
- Brake assist and backup camera
- Battery operated with up to 130 mile range
- 25 mph top speed

Passenger ⚡

Features:

- Move, carry or tow with power & efficiency
- 4,000 lbs towing and 660 lbs payload capacity
- Transport up to 4 passengers
- Battery operated with up to 130 mile range
- 25 mph top speed

Mission ⚡

Features:

- Move, carry or tow with power & efficiency
- 4,000 lbs towing and 1,100 lbs payload capacity
- 80 ft³ cargo box with refrigeration/freezer options
- Battery operated with up to 130 mile range

Pickman XR 2D ⚡

Features:

- 2 door, single cab w/ dual motors
- 5,000 lbs towing capacity
- 1,400 lbs payload capacity
- All wheel drive and off-road terrain capable
- Battery operated with up to 120 mile range

Pickman XR 4D ⚡

Features:

- 4 door, dual cab w/ dual motors
- 5,000 lbs towing capacity
- 660 lbs payload capacity
- All wheel drive and off-road terrain capable
- Battery operated with up to 120 mile range
